

# Why freshwater ecosystem restoration makes (economic) sense

*Investment in NbS creates employment opportunities in the short term and stimulates local sustainable economic development in the long term*

Wednesday, 15 December 2021, 16:00 CET

# MERLIN

free webinar

This webinar will present the key results of a recent Deltares/WWF report, discussing the economic rationale of Nature-based Solutions (NbS) in river systems and the opportunities for investment upscaling

**Sien Kok**

environmental economist at Deltares, specialised in NbS & climate adaptation

**Sanja Pokrajac**

NbS coordinator at WWF Living European Rivers Initiative, specialised in NbS and ecosystem services
